

Water Rescue Pack

Save the Day and Get Soaked!

**Blasts
water
over 30
feet!**

Instructions

1. Remove cap from top of water rescue pack tank.
2. Fill the water rescue pack with water.
3. Replace cap and put arms through shoulder straps.
4. Slide buckles on straps to adjust fit as necessary.
5. Hold the water pump with the hose and the nozzle facing away from you.
6. Pull back on the end of the pump and push forward to squirt water.

Note: Water will squirt after 1-3 pumps.
